LIBRARIAN'S OFFICE

AUTOMOTIVE INDUSTRIES

The AUTOMOBILE

I N D E X TO VOLUME XLVIII (January 4 to June 28, 1923)

Here is an accurate guide to the authoritative articles and reference data which have appeared in AUTOMOTIVE INDUSTRIES during the last six months. The publication of this index is in line with our constant efforts to make this publication of maximum service to the entire automotive industry.

INDEX TO VOLUME XLVIII

ISSUES OF JAN. 4, 1923 TO
JUNE 28, 1923, INCLUSIVE

Jan. 4.....	1- 50
Jan. 11.....	51- 108
Jan. 18.....	109- 158
Jan. 25.....	159- 208
Feb. 1.....	209- 258
Feb. 8.....	259- 308
Feb. 15.....	309- 358
Feb. 22.....	359- 500
Mar. 1.....	501- 550
Mar. 8.....	551- 600
Mar. 15.....	601- 650
Mar. 22.....	651- 700
Mar. 29.....	701- 750
Apr. 5.....	751- 804
Apr. 12.....	805- 854
Apr. 19.....	855- 904
Apr. 26.....	905- 954
May 3.....	955-1008
May 10.....	1009-1058
May 17.....	1059-1108
May 24.....	1109-1158
May 31.....	1159-1208
June 7.....	1209-1262
June 14.....	1263-1312
June 21.....	1313-1362
June 28.....	1363-1452

Accelerator—Motor Products Corp. pneu- matic accelerator	1188
Accidents—1922 (ills. by charts)	859
First step in accident prevention is study of causes (charts)	1020
Lack of supervision blamed for acci- dents	1442
Systematic safety campaigns bring re- duction in accidents	1295
Ace Magneto—No gears in new magneto	291
Achilles Rubber & Tire Co.—Bankrupt	954
Ackerman-Blaesser-Fezzey Co.—Window regulator desc. (ills.)	237
Ackerman, S. E.—Views on National Shows	228
Acme Motor Shield Corp.—Decision awarded in patents suit	548
Adair, Neal—Manufacturers must help dealers solve used car problem	136
Advertisements—M. A. M. A. advertising managers stress value of specialized parts	266
Factory side of dealer advertising con- trol presented	286
How automotive advertising value can be increased	632
Taxicab advertising hits car ownership	692
Aeromarine Airways will extend routes	641
Air contamination by car exhaust to be studied	697
Means recommended to keep air pure	1200
Air cooling—Temperatures in water, air and steam cooled cylinders	337
Are cores with indirect radiating sur- face as effective as all-direct types? (ills.)	679
Air engines—Rolls-Royce aircraft engine (ills.)	336
Clerget engine used in cross-channel flight	1174
Specially designed engines required for commercial airplanes (ills.)	1014
Tests of Liberty engine crankshaft ma- terial (ills.)	823
Air flow measured	1126
Ajax Rubber Co.—Financial report	850
Akron Silica Rubber Co.—Formed to mfg. Kin-Silite battery containers	1207
Albe Mfg. Co.—Lubricating spring cover	1188
Alcohol for motor fuel in Brazil	76
Alcohol yields higher thermal efficiency than other fuels	876
French government to sell alcohol be- low cost	877
Possibilities of alcohol fuel	1133

Allen Tire & Rubber Co.—Want to re- sume operations	1451
Allen, W. H.—Low inflation gives many advantages	816
Allied Motor Commerce of Indiana to hold convention	894
Alloy microstructure—theory of	1280
Allyne-Zerk Co.—Pressure lubricator (ills.)	1091
Aluminum—Welding aluminum in auto- motive parts manufacture (ills.)	726
Chill castings without porous cores can be made from "Y" metal	972
Solder for aluminum	885
Tests of aluminum alloy No. 3	980
Aluminum Mfg. Co.—Cast aluminum disk wheel (ills.)	277
American Automobile Assn.—Control of Assn. goes to Middle West	1149
American Bosch Magneto—New model desc. (ills.)	278
American Chain Co.—Capitalization plan	547
Hoover patent suit awaiting decision	639
American Chemical Society—No gasoline substitute in sight	821
Amer. Commercial Car Co.—Plant sold	951
American Crude Oil Motors Corp.—To exploit German engine run on crude oil	1303
American Drop Forging Institute—Offi- cers elected	200
American Electric Railway Assn.—State control urged for transport lines	490
Amer. Engin. Standards Committee to discuss safety code	250
American Gear Mfgs. Assn.—Annual meeting	932
Outline of activities	1283
American Grinder Co.—Spur gear grind- ing machine (ills.)	968
American Highway Assn.—Formed	308
American La France Fire Engine Co.— Opens truck factory	795
Truck desc. (ills.)	916
American Motor Body Co.—Stockholders approve reorganization plan	1045
Prices advance	796
American Railway Assn.—Railroads pay claims for shipping losses	1205
American Road Builders Assn.—Officers elected	1102
American Rubber Manufacturers—Or- ganized	1350
Amer. Society of Mechanical Engineers— Discuss blending of fuel	951
Amer. Tap & Die, Wells Co. & Williams- burg Mfg. Co.—Consolidate	688
Ames, B. C., Co.—Dial gage desc. (ills.)	553
Ames-Holden Tire & Rubber Co.—Re- organized	154
Anderson Motor Co.—New bodies on model 41 chassis	899
Prices increased	1156
Andrade differential desc. (ills.)	979
Angle, G. D.—Crank-pin bearing design and lubrication (ills.) Part I	520
Angle, G. D.—Crank-pin bearing design and lubrication (ills.) Part II	571
Angle, G. D.—Crank-pin bearing design and lubrication (ills.) Part III	623
Increase in cam tip radius effects re- duction in inertia forces	824
Proper positioning of tappet lever les- sens valve mechanism wear (ills.)	925
Angola—Wants motor vehicles	277
Ansaldo San Giorgio Co.—Closed down	1048
Ansted Engineering Co.—Receivership sought by creditors	996
Apperson Bros. Automobile Co.—Brings out six at show	57
Added funds fortify company's posi- tion	945
Arcade Malleable Iron Co.—Plans for Harley foundry	698
Archer, R. J.—Sales of motor cars in Latin America and West Indies	923
Argentina may change duty levying method	1302
Armleder Motor Truck Co.—Reorganized	156

Argentina—Promises to beat sales marks	155
Better cattle market makes big sales probable	981
Tire prices have declined	816
Will hold more shows in 1923	1309
Asbestos Brake Lining Assn.—Formed	250
Ashland Tire & Rubber Co.—Plant bought	791
Associated Motor Industries changed to National Motors Corp.	42
Associated Spring Corp.—Organized	347
Association of British Motor Mfgs.— Seeks truck tariff	592
Assn. of National Advertisers—Semi-an- nual meeting	1055
Association of Rubber Credit Men— Formed	996
Associations—Government control of trade associations disapproved	540
Trade associations confused on status	1311
Trade associations helpful to industry	948
Trade body cooperation	648
Athol Rubber Co.—Formed	800
Atterbury Motor Car Co.—Tires larger	1250
Auburn Automobile Co.—Two new chassis at show	58
Annual statement	498
Assets given incorrectly Feb. 22	598
Prices increased	1005
Australia—Increase of American im- ports	171
Austin Motor Co.—Lowers prices	951
Planning car with engine at rear	1201
Auto Body Co.—Annual report	489
American Motor Truck Co.—Ace chassis for buses (ills.)	328
Autocar Co.—Sales for 1922	600
Adds electric truck to line (ills.)	1235
Automobile Builders Assn.—Annual meeting	135
Automobile Club of America—Sells home in N. Y. C.	1441
Automotive Electric Assn.—Consider standards for starting motors	248
Flat rates to govern electrical servic- ing	1154
Automotive Electric Service Assn.— Elects officers	306
Brief desc. of convention	270
Automotive Equipment Assn.—Jobbers hold meeting	103
Automotive Fan & Bearing Co.—Organ- ized	1250
Fan with internal pressure oiling system (ills.)	1211
Automotive Finance Co.—Formed	39
Automotive Manufacturers Assn.—Offi- cers elected	598
Automotive Utilities Corp.—Takes A. U. C. of Michigan	353
Aviation—Automotive industry is cred- ited with aircraft engine success	32
Air association makes progress	924
Airplane design influences operating cost materially	525
Air service to Newport	744
All-metal airplanes subsidized by French government	1236
American aircraft engine specifica- tions (table)	460
Application of soaring machine prac- tice to airplane design (ills.)	332
Barbot uses glider here	1262
Benzol to be used in air flight	500
Bombing plane built for British	1452
British aircraft engine specifications (table)	460
British and Foreign airplane speci- fications (table)	454
British "Wren" monoplane	1075
Bulletin on aircraft development since the armistice published	1339
Can refuel airship while it is flying	641
Commercial airplanes (ills.)	1232
Commercial aviation success depends upon safety	125
Commercial aviation must reduce over- head costs	506
Flying fields too inaccessible	874
Freight by plane gaining in Canada	745
French aviation development	364
French aviation progress marked by improved construction	1335

Frenchman flies English channel on one gallon of fuel	1174	Bethlehem Motors Corp.—Prices increased	597	Bowser & Co.—Millionth pump produced	1439
Glider trophy offered	251	Adds other models to line	1356	Bradute, O. E.—Farmer's interest in transportation	1075
Government support for French aviation	284	Bethlehem Shipbuilding Corp.—Diesel engine for automotive use	1141	Bradley, W. F.—Brussels show desc. (ills.)	238
Graphs used in predicting airplane performance	683	Bethlehem Steel Co.—Effect of nickel-chromium on cast-iron	1125	Continental truck design stagnant	421
International Air Congress has a guarantee fund	1125	Biggam Trailer Co.—Reorganizing	150	Fifty thousand Citroen cars planned first year	1103
Largest wind tunnel in Europe	279	Bijur Motor Appliances Co.—Temporary receiver appointed	797	Four-wheel brakes extensively used in France, Italy and Belgium (ills.)	658
Material of which kite balloons and airships are made	274	Assets bought for Eclipse Company	1353	French car builders increase number of types	393
New York indorses flying field site	846	Biltwell Tire Co.—Northern Rubber buys plant	691	French makers are experimenting with fabric covered bodies	765
Organizes soaring competition	965	Birmingham Motors Co.—Indictments unfounded, court holds	1358	Brakes—Front-wheel brakes on U. S. axle (ills.)	275
Paris airport figures	517	Bishop & Babcock Co.—Aqua-stat desc. (ills.)	76	American front wheel brake design (ills.)	1364
Personal fear is greatest handicap to commercial flying growth	504	Black, Archibald—Specially designed engines required for commercial airplanes (ills.)	1014	Balloon tires and four-wheel brakes at S. A. E. meeting	1417
Peugeot makes agreement for all-metal airplanes	1261	Commercial airplanes (ills.)	1232	Distances required for stopping	289
Report published giving causes for airplane accidents	1236	Safety and comfort chief essentials in passenger airplane design (ills.)	1284	Fit American cars with Perrot front wheel brakes	1358
Safety and comfort chief essentials in passenger airplane design (ills.)	1284	Blanchard, Donald—Increasing the durability of truck parts by special production methods (ills.)	22	Four-wheel brake is fundamental improvement	1425
Specially designed engines required for commercial airplanes (ills.)	1014	Better service can be obtained by making maintenance pay	1187	Four-wheel brakes extensively used in France, Italy and Belgium (ills.)	658
Survey of aircraft activities	980	Factory cooperation with dealers makes better service possible	1140	Four-wheel brakes fill real need for better car control	1138
Table showing records of European services	506	Body—Steel tubing used for framework of sedan body (ills.)	4	Renault front-wheel brake (ills.)	1334
Transcontinental flight	1050	Body development	1414	Tests of brake linings will save automobile users money	1214
Value of soaring flight experiments overestimated	860	Building bodies in sections (ills.)	215	Warns against hasty adaptations of front-wheel brakes	755
World's air record broken by Leconte	494	British Assn. agrees on standard body nomenclature	1186	Will front-wheel brake equipment help to sell cars?	752
Wright engine tested by government	851	Can satisfactory bodies be made from sectional stamping	165	Brass—Automotive use of copper and brass increasing	1282
Axles—Front wheel brakes on U. S. axle (ills.)	275	French makers are experimenting with fabric covered bodies	765	Brazil urges alcohol for motor fuel	76
American stock axle specifications (table)	432	How to reduce body production costs—S. A. E. session	112	Bridgeport Motor Truck Corp.—Buys factory	592
Axle efficiency tests (charts)	1030	Progressive assembly reduces costs in Franklin trim shop (ills.)	1164	Briggs Mfg. Co. and Michigan Stamping Co. may merge	1299
Effects of front axle rake and centrifugal force	287	Quality body building (ills.)	672	Bristol Cherub air engine	1188
Front axles of foreign design (ills.)	1391	Rise of service coupes and sport models a feature of show (ills.)	77	Bristol Tramways Co.—Springs for truck (ills.)	969
Huck truck axle desc. (ills.)	1076	Styles at body builders show (ills.)	134	British International Co.—Plans automotive section	589
L. M. triple reduction truck axle desc. (ills.)	518	Trippenese uses sub-assembly methods in building sedan bodies (ills.)	507	Broaching machine hydraulically operated (ills.)	330
Rear axle tests by Bureau of Standards	963	Book reviews		Brooks-Ostruk Co.—Receiver appointed	352
Torbenesen passenger car axles desc. (ills.)	514	Advertising to retailers	1191	Brown, John Co.—Magnetically controlled tilting mirror in new lamp (ills.)	725
B		Altitude effect on air speed indicators published	569	Brown-Lipe-Chapin Co.—Reorganization by G. M. C.	38
Babson, Roger—Motor vehicles raising suburban land values	1293	American malleable cast-iron	33	Makes differential carriers	688
Bachman, B. B.—Designers and service men agree on need for cooperation	313	Anglo-South American handbook for 1922	629	Brown-Lipe Gear Co.—New single plate clutch (ills.)	316
Baker, A. J.—Choice of machine tools makes lower costs possible	763	Automobile laboratory manual	1139	Brown & Sharpe Mfg. Co.—Dial test indicator attachment (ills.)	217
Banham, W. J. L.—Store door delivery advantages	962	Automobile pattern drafting	629	Automatic milling machine (ills.)	758
Store door delivery	1074	Automobile selling sense	1292	Bryan Harvester Co.—Makes light steam tractors	1206
Barbot, Georges—Flies English channel on one gallon of fuel	1174	Automotive Repair, vol. 2, Electrical Service Work	221	Buckman, Herbert—Car exhibitions should be improved	604
Barley, A. C.—Wants N. Y. show a dealer gathering	288	Bibliography of aeronautics	1283	Budd Mfg. Co.—Floating new issue	200
Barley Motor Car Co.—Displays new touring sedan	495	Budgetary control	221	Buenos Aires—Proportion of American cars gaining steadily	1030
Now making Pennant cab	899	Catechisme de l'Automobile	1089	Offers opportunities for bus development	1333
Barnes, Gibson, Raymond, Inc.—To manufacture springs	298	Commercial travelers' guide to Latin America	33	Bugatti—Brief desc. of racing car	1111
Barthel, Oliver—Air cooled engine design	581	Controlling the finances of a business	1169	Buick Motor Co.—May production	1300
Barton Axle Co.—Assets bought	1355	The Diesel engine	1139	Millionth car turned out—production 1903-1923	690
Bassick-Alenite Corp.—Formed	499	Dyke's automobile and gasoline engine encyclopedia	33	Sales for first quarter of 1923	1096
Bates Machine & Tractor Co.—Track-layer tractor (ills.)	670	Electricity and its application to automotive vehicles	1292	Bulgaria purchases 8 Fordson tractors	246
Batteries—Sulphation of storage battery plates	336	Engineering index for 1922	1176	Bullard Machine Tool Co.—Carburetor desc. (ills.)	75
Battery standards form base of study	845	Export advertising by Brown	629	Bumper and shock absorber desc.	75
Method for measuring rate of sulphation of storage battery plates	1289	Financing exports and imports by Cook	629	Carburetor desc. (ills.)	237
Beacon Tire Co.—Receiver appointed	1251	Glossary of electrical terms and instructions to exporters	1330	Burdick Tire & Rubber Co.—Asks for dismissal of receiver	147
Beall, F. F.—There should be put into light car all features that lend to more comfort and convenience	737	International exchange by York	629	Bureau Permanent headed by a Briton	492
Bearings—Machine bearings of limestone in Germany	289	Legal aspects of credit	583	Burgess-Norton Mfg. Co.—Espy acquires	258
Bearing installation practice	1227	Mechanical engineering detail tables	558	Burkhardt, Otto—Steering raises axle when pivots are inclined	984
Crank-pin bearing design and lubrication (ills.) Part I	520	Metals and their alloys	762	Bursie, H. G.—Taxicab body construction	960
Crank-pin bearing design and lubrication (ills.) Part II	571	Modern motor car practice	339	Buses—Ace chassis for buses (ills.)	328
Crank-pin bearing design and lubrication (ills.) Part III	623	Motor camping	1292	American gasoline motor bus specifications (table)	416
Hoffman roller bearings (ills.)	669	Motor Insurance	221	Federal bus desc. (ills.)	512
Beecroft, David—Personal fear is greatest handicap to commercial flying growth	504	Petroleum Register—semi-annual directory	733	Motor coach design	1379
Department store men discuss use of truck in delivery service	682	Plastics and molded electrical insulation	764	New London bus desc. (ills.)	1319
State highway census makes evident motor traffic fallacies	1134	"Pulling together," by Broderick	1089	Bushings—Punch presses used in manufacture of bushings	1132
Belden, E. H.—Increases life of car	815	Service manuals covering electrical equipment for motor cars	574	C	
Belflex Corp.—Pivot shackle (ills.)	755	Stores and materials control	33	Cab Industries Assn.—Organized	1053
Belgium—		Twelve-hour shift in industry	764	Cadillac Motor Car Co.—Engine assembly (ills.)	773
Belgian shock absorber competition	1108	La Vulture Automobile	1176	Cadillac Training School for service men	1177
Buying used American cars	589	Zur Kritik Einiger Neuer Versuchrichtungen im Automobilbau	221	Carburetor changed (ills.)	724
Completes new tariff schedule	750	Boone Tire & Rubber Co.—Bought by Wenstone Rubber	200	Minor changes in 61 catalog price	1006
Lowers duty on cars from France	1052	Bosch, Robert—Increases capital	95	Selling parts at fixed catalog price	246
Benecke & Kropf Mfg. Co.—New carburetor at show	76	Bourdon, W. M.—British motorcycle show (ills.)	28	To continue using V-type engine	1356
Rayfield carburetor desc. (ills.)	568	British design shows marked trend toward overhead valve engines	387	California Automotive Conference—To help industry	200
Berliet Automobile Co.—Makes electric trucks	744	British encourage development of non-glare headlamps	329	California car sales analyzed (charts)	966
Bermuda still opposed to importation of cars	248	Design features of British marine engines	453	Campbell, Colin—Improved industrial conditions point to big year in 1923 for automotive industry	37
Besemer—American Motors Corp.—Merger sanctioned	489	Many new models in British farm tractor field	437	Farm sales will prove big factor in business for last half of this year	1195
		New London bus design (ills.)	1319		
		Six-wheelers prominent in current British truck design	420		
		Triumph car desc. (ills.)	1078		
		Bower Roller Bearing Co.—Financial report	645		

Campbell, Wallace—Canada will offer field for sale of automobiles due to improvement in agricultural condi- tions	91	Cincinnati Gear Cutting Machine Co.— Gear hobbing machine (ills.)	1124	Crow-Elkhart Motor Corp.—Assets sold to Century Motor	1438
Camshaft—Increase in cam tip radius effects reduction in inertia forces	824	Cincinnati Shaper Co.—Press brake desc. (ills.)	17	Cuba—Higher sugar price opens up auto- motive market	1167
Canada—Exports for November	157	Cincinnati Storage Battery Co.—Reor- ganized	1196	Cuban automotive sales will expand with highway development	1222
Canadian duty on wheels	853	Citroens cross Sahara desert in twenty- one days	102	Taxes cars and parts	1301
Canadian gasoline truck specifications (table)	414	Adopts time payment plan	148	Cumberland Tire & Rubber Co.—Sued on notes	943
1922 production of cars and trucks	1339	Andre Citroen here with Sahara cara- van	797	Curtiss Aeroplane & Motor Corp.—Fi- nancial report	548
Saskatchewan license fees based on wheel base length	271	Citroen charges Berliet with having his drawings	1262	Plans for reorganization	943
Canton Spring Co.—Plant sold	852	Citroen door lock (ills.)	837	Plans two companies from one	639
Carbon deposits are influenced by tem- perature of surface	524	Citroen-Kegresse automobiles to be used in Africa	883	Cutler-Hammer Mfg. Co.—Slide button switch (ills.)	342
Carbon monoxide gas in N. Y. City	1200	Ford is included in Citroen caravan To establish factory here	748	Cylinder flns—How to increase their efficiency	768
Carbureters—Adjusting by exhaust gas analysis (tables)	18	Clapp front wheel brake (ills.)	1369	Correction of article	985
Bullard carbureter briefly desc. (ills.) ..	75	Clark, C. H.—Two-arm disk joint (ills.) ..	883	Cylinders—Finishing cylinder bore at working temperature	87
Bullard carbureter desc. (ills.)	237	Clark Equipment Co.—Bevel gear axle desc.	73	Czechoslovakia offers market for low- priced cars	1321
Cadillac carbureter changed (ills.)	724	Clayden, A. Ludlow—Engine design shows service influence (ills.)	69		
Carbureter development	878	High temperature limits power output Shearing of oil film creates pressure which results in pumping	337		
Determining correct carbureter size	220	Warns against hasty adaptations of front wheel brakes	780		
Eagle carbureter desc. (ills.)	1029	Cleveland Automobile Co.—Professional coupe built	755		
Hess carbureter desc. (ills.)	1086	Cleveland Tractor Co.—"Rollin" car to be made in factory	1048		
Jordan carbureter desc. (ills.)	1027	Climax Refrigerating Co.—Merger of two companies	946		
Jordfield carbureter desc. (ills.)	568	Merger will be known as Climax En- gineering	996		
Tillotson Venturi carbureter (ills.)	559	Climax Rubber Co.—Files bankruptcy petition	1154		
Car descriptions		Climax Motor Car Corp.—Asks for re- ceiver	208		
American passenger car chassis speci- fications (table)	380	Closed car production for 1921	1450		
American passenger car export speci- fications (table)	386	Closed car production by years and price classes 1915-1922 (table)	20		
Continental passenger car chassis speci- fications (table)	396	Ford's closed car sales for 1922	361		
Description of some of the Indian- apolis race cars	1116	Clutches—Brown-Lipe single plate clutch (ills.)	296		
Faun car desc. (ills.)	324	American stock clutch specifications (table)	316		
Lavoie car desc. (ills.)	177	Recent clutch designs (ills.)	430		
Miller racing car desc. (ills.)	714	Clydesdale Motor Truck Co.—Changes old models and adds others	1392		
Packard eight-in-line desc. (ills.)	1266	Brief desc. of new bus	296		
Packard racer briefly desc. (ills.)	899	Coats Steam Car Co.—Reorganized	946		
Priamus car desc. (ills.)	719	Cole Motor Car Co.—Discount plan aimed at trading	793		
Scheel-Frontenac racer desc. (ills.)	1120	Cole "no trade" plan told to other deal- ers	98		
Sekine car desc. (ills.)	1322	Colombia—Low prices expand sales in country	792		
Stanley steam car desc. (ills.)	617	Colorado River project increases sales possibilities	1108		
Triumph car desc. (ills.)	1078	Columbia Motor Car Co.—Increases prices—adds phaeton	517		
Carlisle Tire Corp.—Ancillary receiver named	494	Capitalization to be cut	741		
Case hardened work failure due to im- properly made steel	872	Combustion chamber design (ills.)	1439		
Cassidy, Edward Co.—Ends business	98	Comet Automobile Co.—Valuation of property	1406		
Castings—Avoiding impurities in cast- ings	189	Plant not sold—patent rights disposed of	254		
Centrifugal casting adapted to auto- motive work	668	Commerce Motor Truck Co.—Formed	1440		
Chill castings without porous cores can be made from "Y" metal	972	Connecting rod production (G. M. C. truck)	249		
New process for making iron castings developed	1057	Continental European Anderson Gear Co.— Formed	828		
What is aim in chill casting?	1189	Continental Guaranty Corp.—Formed	1049		
Caution plate changed	650	Continental Motors Corp.—Financial re- port	851		
Central Plating & Mfg. Co.—Jordan car- bureter (ills.)	1027	Financial report	150		
Ceylon—Photos of American cars in Ceylon	1335	Type K-4 truck engine desc. (ills.)	196		
Chalmers Motor Corp.—Price of new sedan	1198	Consolidated Motors—Merger of Haynes, Winton & Dorris	231		
Chandler Motor Car Co.—Engineering changes	53	Haynes, stockholders approve merger plan	1145		
Financial report	589	Contract that fixes selling price upset ..	1198		
Prices increased	1156	Conveyor—Miller & Hurst conveyor desc. (ills.)	1151		
Chapin, Roy—Highway transport's growth based upon service to pub- lic	1066	Copper—Automotive use of copper and brass increasing	1181		
Chapman, Frank—Urges standardized sleigh treads	984	Corcoran Victor Co.—To merge with Thomas Corcoran Lamp Co.	1282		
Charcoal—Hungary uses charcoal gas as truck fuel	283	Cord Tire Co.—Officers elected	196		
Chase, Herbert—Lavoie car desc. (ills.) ..	177	Cord Tire Co.—Officers elected	254		
American front wheel brake design (ills.)	1364	Cortland Cart & Carriage Co.—New six- cylinder Hatfield	58		
American La France truck desc. (ills.) ..	916	New bodies announced for Hatfield chassis	1006		
Bushing manufacture	1132	Covert Gear Co.—Transmissions desc. (ills.)	73		
Fuel and research sessions of S. A. E. ..	122	Cox Brass Manufacturing Co.—Merges with Cox Bros. Manufacturing Co. ..	643		
Large section tires may have great advantages	812	Cox Bros. Manufacturing Co.—Absorbs Cox Brass Mfg. Co.	643		
Newcomb engine is characterized by high economy at part load (ills.)	1022	Crane, Henry and Herbert Chase—En- gineering practice leaves much to be accomplished	61		
Revised nomenclature for radiator cores is proposed	610	Crank-pin bearing design and lubrication pt. 1	520		
Chase, Herbert and Henry Crane—En- gineering practice leaves much to be accomplished	61	Crank-pin bearing design and lubrication pt. 2	571		
Chassis—Durability and silence stressed in design (ills.)	64	Crank-pin bearing design and lubrication pt. 3	623		
Chassis design for 1923 shows refine- ment of detail (ills. by charts)	377	Crankshaft of Liberty engine tested (ills.)	823		
Checker Cab Mfg. Co.—Fifteen chassis produced daily	1250	Crating—Dodge Bros. use progressive crating system	1345		
Chevrolet Motor Co.—Reestablishes Northwest zone	152	Crawford Automobile Co.—Prices ad- vanced	901		
Builds cars for Indianapolis race	960				
Millionth car produced	639				
Prices for copper cooled models	951				
Remy starter used on copper cooled Chevrolet (ills.)	557				
Chicago Motor Bus Co. and Yellow Cab Mfg. Co.—Plan to build Knight en- gines	150				
China—Cost of operation of truck in China	17				
Automobile passenger service in China ..	778				
Revised tariff	206				
Cincinnati Ball Crank Co.—One-piece tie rod (ills.)	1337				

Dierfeld, Benno—Application of soaring machine practice to airplane design (ills.)	332	Enameling oven used in Durant plant desc. (ills.)	756	Elgin Motors—Organized to take Elgin car	1046
German Priamus car desc. (ills.)	719	Fender enameling process (ills.)	1026	Indianapolis plant bought for new Elgin	1250
German truck design shows little change	418	Winshield frame enameling	1182	English Electric Co.—British "Wren" monoplane	1075
Lippische 3-ton truck desc. (ills.)	759	Enamels—Low temperature baking enamels	274	Ethyl gas to be marketed	849
Reduction in number of German passenger car models	395	Engines—		Output limits present sale	1203
Diesel automotive engine desc. (ills.)	1336	Air cooled engine design	581	Everitt, B. F.—Industry should endeavor to establish personal contact with auto purchasers	195
Differential housings machined (ills.)	234	American aircraft engine specifications (table)	460	Excelsior Motor Mfg. & Supply Co.—Desc. of engine (ills.)	1170
Andrade differential desc. (ills.)	979	American marine engine specifications (table)	448	Exhaust gas—Adjusting carbureters by gas analysis	18
Disk joint—Clark's two-arm disk point (ills.)	883	American stock engine specifications (table)	428	Exports—	
Disteel Wheel bought by Motor Wheel Corp.	201	Automotive industry is credited with aircraft engine success	32	Agricultural tractor exports, 1922 (table)	479
Doble Steam Motor Car Corp.—Plant to be erected	1445	British aircraft engine specifications (table)	460	American airplane exports, 1916-1922 (table)	480
Dodge Mfg. Co.—Is now own sales agent	152	British marine engine specifications (table)	452	American exports of electric cars and trucks for 1922 (table)	479
Dodge Bros.—Weekly deliveries	1361	Bureau of Mines films workings of engine	1304	American exports of isolated electric plants for 1922	480
Use progressive crating system for export	1345	Cadillac engine assembly (ills.)	773	American exports of storage batteries for 1922 (table)	479
D-Olt Motor Truck Co.—Starts production	296	Combustion chamber design (ills.)	1406	American makers sure of bigger export sales in 1923	162
Dorris Motor Car Co.—Winton, Haynes & Dorris may merge	1145	Continental engine K-4 desc. (ills.)	231	American passenger car export specifications (table)	386
Stockholders give consent to merger	1357	Cylinder wall temperatures far above that of cooling water	781	American spark plug exports, April-Dec., 1922 (table)	480
Dort Motor Car Co.—Prices changed	741	Demand for big engines	533	April exports (full table)	1342
Some models dropped	946	Deposits of carbon are influenced by temperature of surface	524	Automobile parts, 1921 and 1922 (table)	481
Doss Rubber & Tube Co.—Reorganized	748	Design features of British marine engines	453	Automotive exports from U. S. by customs districts, 1922	875
Double control on British truck	1330	Detonation session of S. A. E.	128	Belgian automobile exports, 1919, 1920, 1921, 1922 (table)	483
Drake, J. Walter—Tariff adjustment is needed to permit expansion of foreign trade	1070	Diesel automotive engine desc. (ills.)	1336	Belgian motorcycle exports, 1921 and six months of 1922 (table)	483
Drills—Holes in glass drilled by use of brass tube	312	Diesel engine for automotive use	1141	British aircraft exports for two years (table)	858
Duco finish—du Pont product	1125	Double piston engines	1039	British exports, motor vehicle chassis; —1911-1922 (table)	482
Duesenberg Automobile & Motors Co.—		Engine characteristics under high compression	131	British exporters urged to follow American export practice	1163
Prices cut	303	Engine cooling discussed by Heron & Lockwood	118	British passenger car exports, 1921-1922 (table)	482
Brief desc. of Duesenberg racing car	1116	Engine design shows service influence (ills.)	69	British truck exports, 1921-1922 (table)	482
Company sound, court is told	900	Engines are dutiable at 40 per cent rate	688	Canadian exports, 1921 and 1922 (table)	481
Engine makes no-stop run	1006	Engineering practice leaves much to be accomplished (ills.)	61	Canadian tire exports, 1921 and 1922 (table)	483
Hydraulic brake on front axle (ills.)	1365	Excelsior engine desc. (ills.)	1170	Canadian truck exports, 1921 and 1922 (table)	483
Receiver not appointed by court	942	German six-stroke kesosene engine	671	December exports (full table)	630
Talking on supplies in non-stop test (photo)	1053	Glucose anti-freeze action unreliable	820	Exports may take up sales slack if home demand declines	905
Value of track test told by Duesenberg	1104	Herschell-Spillman bus engine desc. (ills.)	1129	Exports of automotive parts, 1912-1922 (tables)	471
Dunbar—To be produced by David Dunbar Buick	949	Herschell-Spillman 4-cylinder engine desc. (ills.)	1178	February exports (full table)	1036
Dunlop Tire & Rubber Corp.—No contract with any car producer	357	Hinkley engine production (ills.)	861	French car and truck exports, 1922 (table)	482
Sales started	1046	Increase in cam tip radius effects reduction in inertia forces	824	French exports for three months of 1923	1231
To use branches	1107	Keister engine with single sleeve and oscillating valves (ills.)	913	German automotive exports, Jan. to Oct., 1922 (table)	483
Duplex Truck Co.—Three new models added to line	641	Manifolding for vertical elights (ills.)	1328	Hoover tells automotive exporters world markets are theirs	1316
Du Pont de Nemours & Co.—Duco finish	1125	Marine engines show influence of automobile practice	530	Hoover would hurry figures on imports	491
Durant Motor Corp.—Daily production	953	Newcomb engine desc. (ills.)	1022	Imports declined from 1921	802
Buys Amer. Plate Glass Co.	488	New German engine runs on crude oil	1303	Imports into Great Britain (table)	681
Durant bank not to lend to any of its officers	903	Prime cause of pumping not firm pressure	1090	Italian car exports (table)	483
Durant enameling oven desc. (ills.)	756	Proner positioning of tappet lever lessens valve mechanism wear (ills.)	925	January exports (full table)	834
"Eagle" to be added to line	1254	Research shows how to increase cylinder fin efficiency (charts)	768	March exports (full table)	1235
February production of Star cars	646	Rotating indexing jigs reduce labor cost in engine manufacture (ills.)	612	Motorcycle exports from 1913 to 1922 (tables)	476
Financial report	1047	R. & V. Knight 6-cylinder engine desc. (ills.)	13	1922 export sales record exceeded only by 1920 (charts and tables)	468
Financial report	488	Temperatures in water, air and steam cooled cylinders	337	November exports of cars, trucks and tires (full table)	190
Flint built in limited numbers	1445	Testing fuels for high compression engines	129	October imports and reimports (brief table)	491
Liberty National name of new bank	1198	Trojan engine desc. (ills.)	931	Passenger car exports from 1914 to 1922 (tables)	472
New car to be built priced at \$525	687	Turbulence as factor governing spark advance	1427	Swiss automotive imports decrease	519
100,000 vehicles built in 17 months	745	Vertical eight engine desc. (ills.)	817	Tire exports, 1913 to 1922 (tables)	478
300 cars produced daily by Durant of Michigan	541	Wright-Navv development work yield increase in engine work (ills.)	928	Truck exports from 1914 to 1922 (tables)	474
To export 1,000 cars	795	England—British design shows marked trend toward overhead valve engines	387		
Dynamometer tests at the G. M. Truck plant (ills.)	224	Benzol industry strengthened in Eng. land	816	F	
Dynamometer rear axle tests do not tell whole story	1290	British agricultural tractor specifications (table)	437	Fabric—Rise of service coupes and sport models a feature of show (ills.)	77
Dynamometer to measure drawbar pull on grades	319	British aircraft exports for two years (table)	858	Testing leather cloth and fabrics	117
Principal defects of fan dynamometer overcome	965	British car business suffering	1326	Fageol, Frank—Motor coach design	1379
E		British gasoline truck chassis specifications (table)	422	Falor Rubber Co.—Receiver appointed	494
Eagle Carburetor Co.—Eagle carburetor desc. (ills.)	1029	British haulage methods help solve terminal problems	959	Plant to reopen	588
Earl Motors Mfg. Co.—Organized to mfg. Earl cars	545	British industry inclines to upward trend	858	Fan—Internal pressure oiling system reduces fan wear	1211
Financial report	591	British marine engine specifications (table)	452	Farman Automobile Co.—Racing sedan desc. (ills.)	665
Starts producing new sport phaeton	1107	British motorcycle specifications (table)	444	Farmer, Henry—How truck paper can be made more attractive to bankers	170
Eastern Automobile Equipment Assn.—Annual meeting	103	British passenger car chassis specifications (table)	388	Farmer buying power higher than it was in 1914	21
Eaton Axle & Spring Co.—Merger of several companies	898	Imports into Great Britain (table)	681	Farmer's interest in transportation	1075
Merger aided by stock sale	998	Many new models in British farm tractor field	437	Southern farmers say what they think about tractors	276
Economic surveys—Appear once a month. See also Production		Movement for standardization of industrial materials	913	Time has come for sale of trucks to Southern farmers	317
April economic survey	786	Price cuts would revive demand for Amer. products	605	Farmer, A. M.—Opinion on national shows	532
June monthly economic survey	1244	Proposal to raise duty in England is blocked	738	Fatigue of metals	173
May monthly economic survey	990	Six-wheelers prominent in current British truck design	420	Faun car desc. (ills.)	324
Edward, M.—South African car market	350	Tax agitation hampers sales	903		
Electric Auto-Lite Co.—Financial report	904				
Electric passenger car specifications (table)	385
